

Topics for Seminars (also with Bachelor Thesis)

Supervisor: Uwe Egly

August 6, 2014

Here are some general topics for the seminars and the seminar with bachelor thesis. The seminars are based on three books, available at our group. Please contact me if you are interested in a more specific description of the topics.

1. Computational Complexity and Statistical Physics
2. Topics from the Handbook of Satisfiability
3. Topics from The Calculus of Computation
4. Topics related to solving quantified Boolean formulas (QBFs) and solvers
